Dinorwig power station: Electric Mountain Visitor Centre

Electric Mountain Centre attracts an average of 250,000 visitors per year (including school trips and pensioners). A further 70,000 visitors go on the tour of the Dinorwig power station. The centre allows visitors of all ages to discover the power of hydro-electricity in an exciting, interactive and educational environment. Electric Mountain contains interactive displays, models and exhibitions. The history and development of electricity, and its immeasurable effect on mankind is colourfully explained.
